These two men to that day were esteemed and respected by their fellow-citizens, by whom the particulars of their most fortunate escape are not forgotten.—*Journal of a Nobleman.*

TUSKILLER.—At nearly four hours in the forenoon of yesterday, the route to the race course presented an animated scene. The bright sun which shone so conspicuously induced many to exchange the dusty streets of our city, for the clear air of Long Island. Every carriage, sled, and omnibus with an interest in the expected race, and more save those who lay too deeply, had to complain that their anticipations were not realized.

About 11 o'clock, three horses started for the green pastures, for which five had entered. Mr. Johnson's Goliath and Col. Johnson's Virginia mare, Bonnets of Blue, for \$10,000 each, had got by Eclipse and Mr. Johnson's repeat, but notwithstanding this it was an extremely interesting race; for nearly half the course, a short heat would have covered the horses. The stakes were \$100 each. The first heat was run in 1 m. 26 sec.; the other in a few seconds less.

A few minutes after one o'clock the match between Livingston's Goliath and Col. Johnson's Virginia mare, Bonnets of Blue, for \$10,000 each, had got by Eclipse and Mr. Johnson's repeat, but notwithstanding this it was an extremely interesting race; for nearly half the course, a short heat would have covered the horses. A young lady possessing great beauty and accomplishments, the daughter of highly respectable parents, residing in the Northern Liberties, made an attempt to destroy herself, by taking laudanum, a few days since. This rash act was occasioned by her parents interfering the company of a worthless lover, upon whom she had unfortunately placed her affection. The use of the stomach pump rescued her from death.

A drunken vagabond perambulating Callowhill street, on the evening of Wednesday last, came in contact with a boy, who was passing in a contrary direction. The collision was so violent that the boy was thrown down with much force; when picked up, it was discovered that his thigh was broken. He was conveyed home in great agony. The intoxicated man was arrested, but we have not understood the result of his examination before the magistrate.

A gross outrage was committed on a citizen in the early hour on Saturday night last. As he was returning home from the house of a lady to whom he is addressing his affections, he was violently assailed from behind, and laid prostrate by several blows from a club in the hands of a large person, who seemed bent upon taking his life. His cries brought the watch, when the attacker fled. The gentleman did not recognize the assailant, and knows of no individual upon whom he can rest his suspicions.

About 4 o'clock, on Sunday morning, a fire was discovered among from the work shop of Mr. Adam Ramage, in Library, near Fifth street, which was not arrested until a number of tools and the workshop were destroyed. Mr. Ramage's loss in materials alone, is, we understand, rising \$1000.

At Pottsville, a few evenings since, a respectable resident, whose name is O'Connor, was attacked in the street by several men, who knocked him down and beat him brutally. One of the ruffians was arrested at the spot, but the others escaped.

The Mayor has been authorized, by the Councils, to pay a suitable reward for the detection of any of the incendiaries who are believed to have been recently at work in several parts of the city. Any information, properly communicated at the police office, will doubtless be promptly attended to.

UNION CANAL.—The accounts from the Union Canal are more encouraging. The trade, since the communication to Pittsburgh has been opened, is daily increasing.—In the spring of 1820, she won the great stakes on Union Course, and in the following October she won the sweepstakes at Tree Hill, Rachael, and on both these occasions made her debut in the meet.

The day, at 12 o'clock.—Match race between Mr. Crancy's Cotton Plant and Dr. Bailey's Lady of the Lake.—\$1000.

One o'clock.—Two mile heats—purse \$250. Purse of Mr. Badger's Arietta, 4 years; Mr. Conover's Celeste, 4 years; Mr. Bedell's Jeanette, 5 years.

Three o'clock.—Three mile heats—purse \$400. Entered, Mr. Conover's Arietta, 4 years; Mr. Conover's Celeste, 4 years; Mr. Bedell's Jeanette, 5 years.

Four o'clock.—Match race between Mr. Livingston's Goliath and Col. Johnson's Bonnets of Blue, two miles, for \$2000.

IMPRISONMENT FOR DEBT.—The application of John Boruck, an imprisoned debtor, for a discharge under the provisions of the experimental act, was denied on Tuesday last before his honor the Recorder, and a jury of freeholders summoned on the demand of the opposing creditors, who are also debtors, and who were represented by their counsel, Messrs. Seaman and Cameron. Upon hearing the examination of the insolvent, and some other testimony, the jury discharged him, with which passed the cause, from the trial of Archy's cross on the next day. Archy, in his defense, stated that a year ago he made a vow to abstain from drinking for full twelve months, which vow he most rigidly adhered to—that on Saturday night the time expired, and he thought the evil well worth a celebration. Accordingly, that he might not soon forget his promise, he resolved, to get drunk, and quaffed with his supporters, as they are useful to the deaf and dumb. He was a remarkably intelligent and active. The majority of the questions which we propounded to him in writing, he seemed readily to understand, and, without hesitation, wrote the proper answer.

Report for the Saturday Evening Post.

MAYOR'S OFFICE.

An extraordinary number of prisoners were brought on Saturday morning to the scenes of two nights' white-faced and mixed, as usual, constituted the mobbed collection. The first arraigned was a Mr. Archibald Elwell, who was charged with having committed an assault on the person of Mr. Martin, a surgeon, in the office of Archy's cross on the next day. Archy, in his defense, stated that a year ago he made a vow to abstain from drinking for full twelve months, which vow he most rigidly adhered to—that on Saturday night the time expired, and he thought the evil well worth a celebration. He was highly gratified with an interview with a deaf and dumb man who came into our office last week. He is a native of Warrington, but now resides at Middleborough, where he works in a cabinet maker's shop. He received the name of the American Asylum for the deaf and dumb, & H. H. To Readers and Correspondents.

The gentleman who criticizes a portion of the last number of "Horace in Philadelphia," puts a forced construction on the author's meaning. We presume he intended no other allusion as is intimated in the criticism, and if he did not, it would be unfair and unjust to charge so fearful a credit to his account.

We should never have inserted the article in question had we even anticipated that such a construction could be placed on the language of our correspondent, and we trust this circumstance will satisfy the solicitude of several of our friends who appear displeased with the article.

"Signs" is unanswerable.

The lines by "Senrad," and those by "W." are on file for insertion.

"Carlo" is informed that one of his pieces was in type before we received his note. That, however, will make no difference in the arrangement we have made in respect to communications intended for the *Casket*.

The engraving in the May number of the *Casket*, which will be published in a few days, is one of superior beauty and excellence, both as regards the execution of the plate, and the splendor of the portrait. The lady represented is the Marchioness of Carmarthen, grand daughter of the venerable Charles Carroll, of Carrollton, now the only surviving signer of the declaration of independence. The Marchioness, who is attached to the Court of St. James, is said to possess, in accomplishments of the mind, amiability of manner, and virtuous integrity, beauty far superior to personal charms or a handsome exterior, for which she is justly celebrated. We feel well assured that the readers of the *Casket* will be gratified with this and the other embellishments in the May number. The general contents are, as usual, chosen with care—several excellent original articles will be found inserted.

Owing to the quantity of original and selected matter already on hand, it will not be possible to commence the publication of the paid for communications, before one other number is issued. Some excellent articles have already been received, and will shortly be put in type for the July number, which will be issued early in that month. We shall be pleased to receive further favours from our friends, in time to be noticed on the cover of the *Casket* for June.

HOW TO MAKE MONEY.

Put money in thy purse.—Shakespeare.

One of the greatest desiderata in the present day, appears to be the art of accumulating wealth. Among all classes and descriptions of people, the same thirst prevails, and if any difference exist, in respect to the strength of the desire after riches, it may be remarked, that the man who has already acquired a competency, is more clamorous for an extension of his power, than is the man who makes the assay with a single dollar in his pocket. So wonderfully does the possession of a portion of wealth, act on the mind and create a desire for more.

The Scripture says—"the love of money is the root of all evil"—had the sentence been written by one in our day, the writer would have added, "as well as of much good;" for it cannot be denied that money, however strong the propensity it exerts to evil, frequently induces men to live a life of subtlety and religion; makes them act on the mind and create a desire for more.

A measure of this kind has long been needed in New York, and will prove itself worth the cost, on matter what labour and expense have been necessarily incurred in procuring it. The force of their hydrants, are, however, not so great as that of some of the fire plugs in this city. We have seen water propelled to the distance of more than one hundred feet, through a 30 foot section of hose, when attached to a pump; and with a pipe of two inches, we have seen six engines, comprising nearly fifty individuals, principally Irish, most of whom made their escape when the alarm was first given. Mr. John Murphy, his wife and three children, were all safe, at a room in third story, when the plug was suddenly broken in their sleep, and died without the least sensation of pain. Mrs. Sullivan, wife and child, in the third story, awoke, but too late to make their escape by the stairway—they seem to have been overtaken by the flames in those in the middle stories, down to them to make their escape; the top of the house and wait for ladders, the mother seemed only intent on saving the child, and the husband to save the wife. She secondingly wrapped the child as well as she could with her shawl, and held it close to her bosom, and letting her wife down as far as she could reach, let her drop upon the pavement, and then jumped out herself. The mother who was informed escaped without serious injury—but the father and the child are not expected to survive. One of the sons, a boy of twelve years, was very happy with his husband.

On Saturday or Sunday night, some scoundrels made an attempt to force an entrance into the residence of Mrs. Smith, in Broad street, near the Bowery.
